Call for application -

4th Interdisciplinary Doctoral Conference 2015

The Doctoral Student Association of the University of Pécs (DSA UP) is proud to organize its international multidisciplinary scientific event for the fourth time from 14th–15th May 2015. The event is a joint international symposium consisting of the **Interdisciplinary Doctoral Conference** (IDC2015), and the Blossoming Almond Trees Science Days. IDC2015 is under the patronage of Professor József Bódis, M.D., rector of the University of Pécs and former president of the Hungarian Rectors' Conference.

The *main aim* of the Conference is to create a platform and provide a good opportunity for Hungarian and international doctoral students to exchange ideas, hold scientific presentations, and also to strengthen personal and professional networking. Furthermore, prominent and influential scientists are invited to present their research findings as plenary speakers.

We are pleased to invite **national and international PhD students from all scientific fields** to the “IDC2015” where you will have the possibility to present your research in oral or poster sessions; even artists have a place to display their work. At the same time workshops and round-table discussions will enrich the program.

This year beside the expected presentations, every technical session will be followed by an interdisciplinary discussion with current problems and topics worth to negotiate on. The aim of the interdisciplinary sections is to generate discussion and debate after the competent presenters hold their speeches. Hence colleagues from another scientific field can learn new knowledge and new perspective which might be used for later research.

Please register on our official website or find further information regarding the event at idkpecs.hu.
